

## RAILROAD TRACK SCALE

NTEP CERTIFIED

HYDROSTATIC • SERIES RR60

The Emery Winslow Railroad Track Scale is designed for the most demanding applications. Because it has no electronics beneath the scale platform, it is the most reliable.

The heart of the Emery Winslow Railroad Track Scale is the Hydrostatic load cell. NTEP Certified for accuracy and performance, this load cell is immune to the environmental factors that can easily destroy electronic load cells.

- Immune to water damage
- Immune to lightning damage
- Immune to rodent damage
- Extended calibration integrity
- Superior corrosion resistance
- Immune to welding and power surges

This load cell gets a direct blast from a high pressure hose.
